

Installing the GUI Layout Toolbox for MATLAB

Coursera: Control of Mobile Robots

Matthew Hale

January 3, 2016

Installation

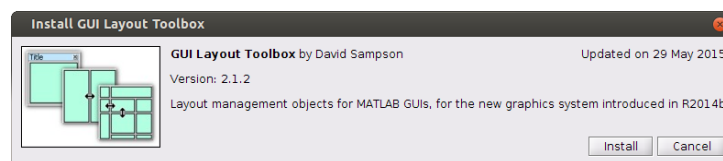

This document covers installation of the GUI Layout Toolbox for MATLAB which is used by the Sim.I.am simulator. The steps in this document should be followed before attempting to run Sim.I.am because Sim.I.am relies on this library and will not be able to run without it. **This toolbox only needs to be installed once.** The instructions in this document apply to MATLAB R2014b and later, and a license for the current version of MATLAB is available to all students for the duration of the course.

Step 1: Go to <http://www.mathworks.com/matlabcentral/fileexchange/47982-gui-layout-toolbox>.

Step 2: On the upper-right, click the “Download Toolbox” button. A dialog will appear prompting you to select a location for saving the file GUI Layout Toolbox 2.1.2.mltbx. Select a location that you’ll remember, e.g., your Downloads folder.

Step 3: Open MATLAB and navigate to the folder where the GUI Layout Toolbox 2.1.2.mltbx file was saved. Double click on this file.

Step 4: The following dialog will appear:

Click 'Install'.

Step 5: On the next screen, check the box to agree to the terms of service for this toolbox, then click 'OK'.

Step 6: After a few moments, the following picture will appear at the upper-middle of your screen, indicating that installation is complete:
